NORWOOD MEDICAL CENTRE

ACCOUNTANTS' REPORT

2015/16

This estimate of the mean GP earnings in respect of your practice has been prepared on accordance with your instructions.

Moore and Smalley LLP is acting as advisor to the partners of Norwood Medical Centre and accepts no duty of care or liability towards any other person in connection with this calculation.

It should be noted that the prescribed method for calculating earnings is potentially misleading as it takes no account of how much time doctors spend working in the practice, and should not be taken as any judgement about GP earnings, nor to make any comparison with any other practice.

NORWOOD MEDICAL CENTRE

PUBLICATION OF EARNINGS BASIS OF CALCULATION

We have completed the 2015/16 publication of earnings figure based on the accounts to 31 March 2016

The calculation is based on the following:

	£	
Practice profit for the year after deduction of partner expenses	686,835	
Excluded income (As per NHS guidance)	(342,576)	
Non applicable expenses (Apportioned and excluded expenses)	42,452	
Add back salaried GPs salaries (If in practice more than 6 months)	-	
Add back applicable locums (If in practice more than 6 months)	-	
Net relevant earnings for publication	386,711	

Number of GPs in practice more than 6 months

GP partners

full time	5
part time	3

Salaried GPs

full time	0
part time	0

Locums

full time	0
part time	0
Total	<u>8</u>

Note:
Any GP working 8 sessions or more is classified as full time.
any GP working less than 8 sessions is classified as part time.

Mean average for publication **48,339**

(Above divided by total number of GPs in practice for more than 6 months in the applicable financial year

NORWOOD MEDICAL CENTRE

PUBLICATION OF EARNINGS

All GP practices are required to declare the mean earnings (e.g. average) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working in the Norwood Medical Centre in the last financial year before tax and National Insurance was £48,339

This is for 5 full time GPs, 3 part time GPs, and 0 locum GPs who worked in the practice for more than 6 months.

It should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice.
